## EMPLOYMENT HISTORY

**Counterterrorism Intelligence Analyst Intern**  
*CTG*

Remote/Washington, D.C.  
February 2021 – Present

**Data Analyst Intern**  
*BOK Financial*

Tulsa, OK  
May 2019 – Aug. 2019

- Worked independently to write queries and collect information from large databases using SQL.
- Brainstormed with the Consumer Banking team to identify customer trends and business needs.
- Initiated marketing strategy to target a previously untapped 7% of the consumer base.
- Presented key findings and recommendations to senior leadership through oral presentation and report, using slides and data visualizations as aids.
- Identified over 16,600 potential customers and created a target user profile using collected demographics. This information was used to give customers a more convenient, secure, and accessible banking experience through the usage of online and mobile banking platforms.

## EDUCATION

**Graduate Certificate in Geospatial Intelligence**  
*University of Texas at Dallas*

Richardson, TX  
Expected Aug. 2021

**Bachelor of Science in Computer Science**  
*Oklahoma State University*

Stillwater, OK  
Aug. 2016 – May 2020

**Bachelor of Science in Statistics**  
*Oklahoma State University*

Stillwater, OK  
Aug. 2016 – May 2020

## PROJECTS

### DFW Home Value Prediction

Regression project utilizing geospatial Census data in R to predict the median home price in the Dallas/Fort-Worth area. Multiple variables from each Census tract, including median age, household income, percent unemployment, and buying power, were used to create the most successful predictive model. Visualizations and maps were included to support the analysis. Project was presented in written report.

- R, RStudio

### “GardenER” Diagnostic Tool

Created a custom database and web application to help users solve common plant-related problems based on their input and provided the most likely solution. Application also included a custom garden planner tool, which utilized SQL to search the database and provide users with a list of compatible plants based on their preferences.

- MySQL, PHPMyAdmin, HTML/CSS

## TECHNICAL SKILLS

Programming Languages: SQL, R, Python, Java, C/C++, familiar with HTML/CSS, SAS, Kotlin, Swift
